Targeted Early Intervention (TEI) services - year to date (YTD) data

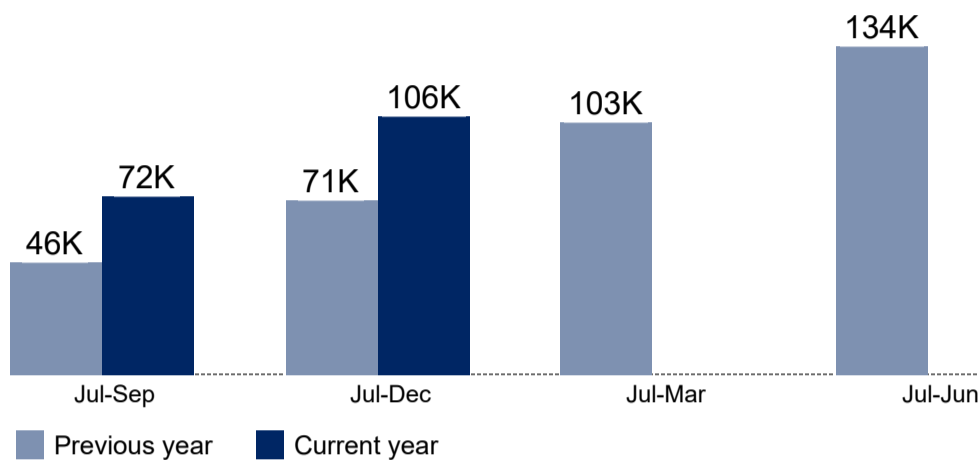

How many **individual clients** were seen in TEI from the first day of the financial year to the end of the quarter?

Chart 1: TEI - Individual clients seen (YTD)

There were approximately **106K** individual clients who received TEI services from 1 July 2022 to 31 December 2022.

When compared with the same period in the previous year of **71K** individual clients who received TEI services, this is an increase of approximately **35K**.

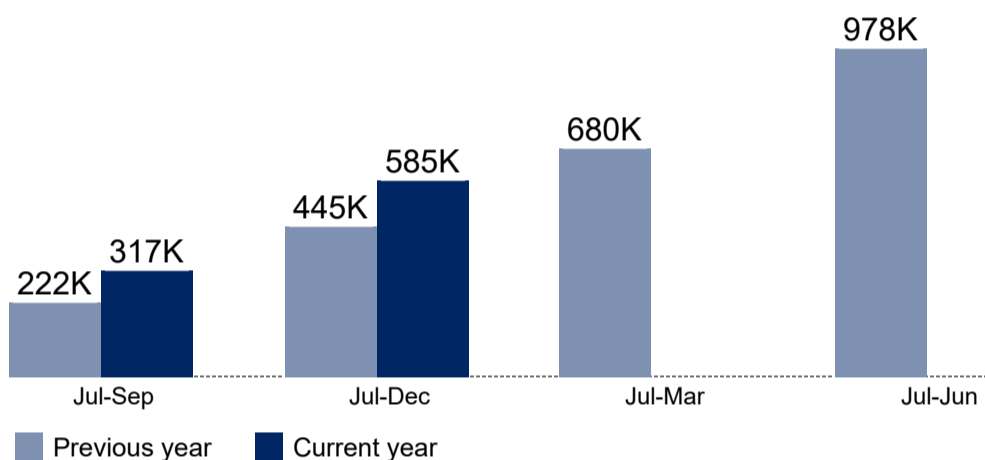

How many **group clients** were seen in TEI from the first day of the financial year to the end of the quarter?

Chart 2: TEI - Group clients seen (YTD)

There were approximately **585K** group clients who received TEI services from 1 July 2022 to 31 December 2022.

When compared with the same period in the previous year of **445K** group clients who received TEI services, this is an increase of approximately **139K**.

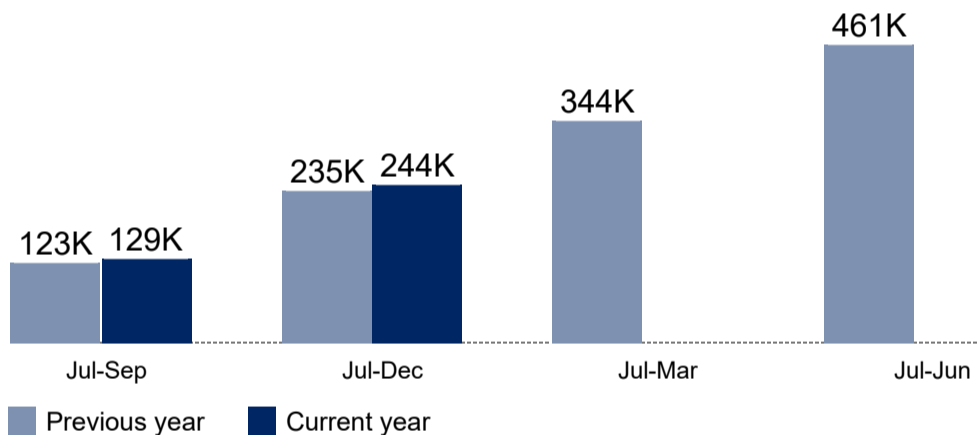

How many **total sessions** were delivered in TEI from the first day of the financial year to the end of the quarter?

Chart 3: TEI - Total sessions delivered (YTD)

There were approximately **244K** TEI sessions delivered from 1 July 2022 to 31 December 2022.

When compared with the same period in the previous year of **235K** TEI sessions delivered, this is an increase of approximately **9K**.

Notes:

1. Data on Targeted Early Intervention (TEI) Services from the Department of Social Security (DSS) DataExchange (DEX) platform was first reported in the September 2020 Caseworker Dashboard.
2. Finalised data on Targeted Early Intervention (TEI) services is available 6 monthly. Consequently from 2022-23, YTD Q1 data will be reported at the same time that YTD Q2 data is reported. Similarly YTD Q3 data will be reported at the same time that YTD Q4 data are reported.
3. TEI data for 2020-21 can be accessed [here](#).

Children and young people involved in concern reports

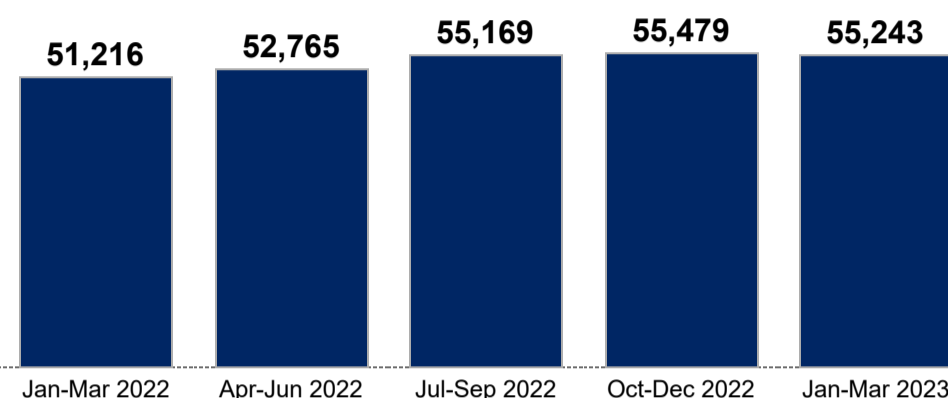

How many **children and young people** were involved in child and young person **concern reports** during the quarter?

There were **55,243** children and young people involved in concern reports in the January to March 2023 quarter. This is comparable to the number reported in the previous quarter.

When compared with the same quarter in the previous year of **51,216**, this is an increase of **7.9%**.

Chart 1: **Children and young people** involved in concern reports

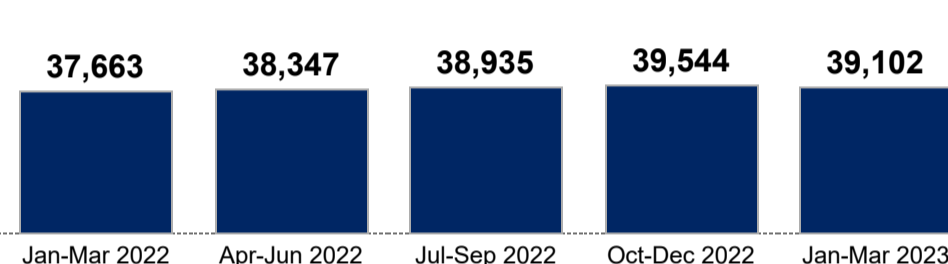

How many **children and young people** were involved in **ROSH reports** during the quarter?

A total of **39,102** children and young people involved in ROSH reports in NSW in the January to March 2023 quarter. This translates to a decline of **1.1%** from the previous quarter.

When compared with the same quarter in the previous year of **37,663**, this is an increase of **3.8%** or **1,439** children and young people.

Aboriginality: All
District: All

Chart 2: **Children and young people** involved in ROSH reports² during the quarter

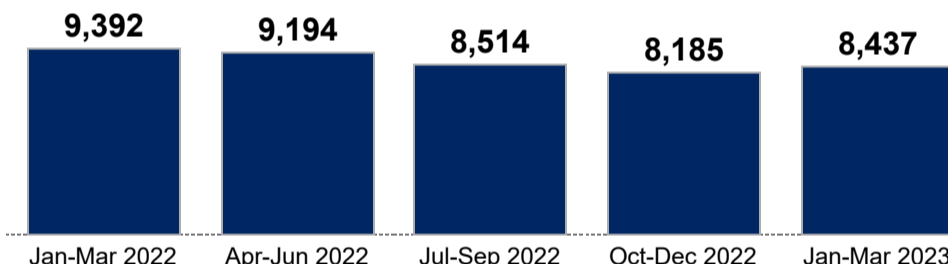

How many **children and young people** were **seen** by a DCJ caseworker during the quarter?

A total of **8,437** children and young people involved in ROSH reports who were seen by a DCJ caseworker in NSW in the January to March 2023 quarter. This represents a rise of **3.1%** from the previous quarter.

When compared with the same quarter in the previous year of **9,392**, this is a decrease of **10.2%** or **955** children and young people.

Aboriginality: All
District: All

Chart 3: **Children and young people** involved in ROSH reports during the quarter who were seen³

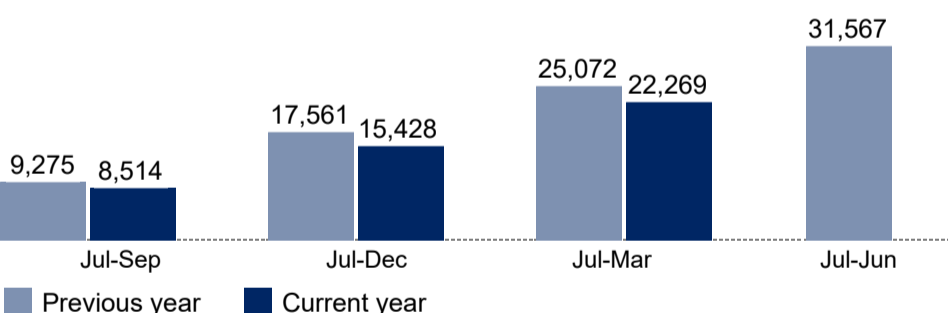

How many **children and young people** were **seen** by a DCJ caseworker from the first day of the financial year to the end of the quarter?

A total of **22,269** children and young people involved in ROSH reports who were seen by a DCJ caseworker from July 2022 to March 2023.

When compared with the same period in the previous year of **25,072** children and young people, this is a decrease of **2,803** children and young people were seen by a DCJ caseworker.

Aboriginality: All

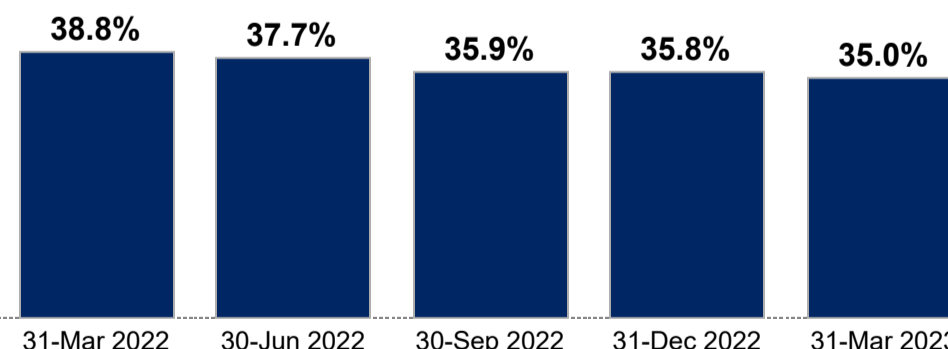

Chart 4: **Children and young people** involved in ROSH reports who were seen YTD

What is the percentage of children and young people re-reported at ROSH within 12 months of case plan closure by the end of the quarter⁴?

By 31 March 2023, **35.0%** of children and young people were re-reported at ROSH within 12 months of case plan closure (Target 32.3% by June 2023).

Chart 5: **Children and young people** re-reported within 12 months of case plan closure by the end of the quarter⁴

Notes:

1. Data for non-Aboriginal children and young people also include children and young people with the Aboriginality status of **Not Stated**.
2. Prior to 2022-23, District in the **Children and young people involved in ROSH report** measure refer to the District of the first ROSH during the quarter. From Q1 2022-23, District is updated to for the sub-cohort of children seen only to align with the Children Seen measure.
3. District in **Children Seen** measure refers to District associated with the ROSH report during the reporting period that had the earliest submitted Safety/Alternative Assessment.
4. Based on the cohort of children who had closed cases during the 12 month period with case closure reasons of either (i) *case plan goal achieved* OR (ii) *no further intervention required*. These children are followed up for 12 months following care closure to determine what proportion are reported within that 12 month follow up period ending the last day of the reported quarter.
5. Small numbers (e.g., <5) have been suppressed to protect privacy and avoid client identification.
6. NP: Not published.
